TIM ATOYO

Phone: 07477036144 | [Email](#) | [LinkedIn](#) | [GitHub](#) | Willenhall, U.K.

Results-driven software developer with 2 years' experience, combining design expertise and technical skills to deliver exceptional user experiences for high-traffic websites, including projects for Costa, Microsoft, and Firebrand. Proficient in Figma, HTML, CSS, and JavaScript frameworks. Quick promotion to junior developer and track record of surpassing client targets showcase my commitment and efficiency. Skilled in troubleshooting, debugging, and cross-browser compatibility. Eager to contribute to a dynamic team focused on streamlined UI development.

TECHNICAL SKILLS

JS ES6+, CSS3, HTML5, GitHub, MySQL, React, Node.js, JQuery, Bootstrap, MJML, Figma, C#

EXPERIENCE

Software Developer   **July 2022–Present**
TheTalentPeople   **Remote, UK**
Developing user-friendly web pages to bring attention to company needs.
Key Accomplishments:
- Promoted to junior developer in 1 year for outstanding performance on high-profile projects, including the full-stack implementation of change requests.
- Developed innovative web applications using HTML, CSS, JavaScript, and C#, consistently surpassing client targets.
- Collaboration with clients, managers, and marketing specialists on long-term projects, overseeing UI design, converting wireframes to HTML/CSS, and resulting in a contract review.
- Troubleshooting and debugging applications, ensuring seamless functionality and resolving critical issues within 24 hours. Demonstrated proficiency in Microsoft SharePoint, improving employee communication and productivity by 70%.
- Received recognition for exceptional collaboration with internal colleagues, earning multiple value awards.

Frasers Group   **Jan 2022–May 2022**
Trainee Developer   **Nottingham, UK**
Served users from all areas of the world in a high-paced traffic.
Key Accomplishments:
- Designed and developed user-friendly websites, ensuring consistent quality across devices. Implemented new features for the supplier website, utilizing C#, strong SQL and database programming skills. Demonstrated effective communication with stakeholders and actively sought learning opportunities from senior developers.

PROJECTS

WANDER-GUARD | [Repo](#) | [Deployed project](#)
